REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicant's arguments on pages 4-6 of his amendment stating that none of the prior art, taken either singly or in combination, is seen to teach or suggest the particular structural configuration of a bassinet supported on a baby play yard which is enclosed by *fabric*, wherein an opening is provided on the play yard, the opening having a cover thereon with at least one fastening means provided between the periphery of the cover and an inner edge of the opening, *in combination with* an accommodating space for receiving articles, the accommodating space is *suspended by and positioned beneath the bassinet by fixing means* for securely fixing the accommodating space under the bassinet, such that the opening facilitates access to the accommodating space, as explicitly recited in Applicant's sole independent claim 1. As shown by the prior art, most conventional storage assemblies used in conjunction with a bassinet and play yard having a fabric enclosure are either positioned alongside the bassinet or affixed to the fabric exterior of the play yard. Since an updated search of the prior art did not yield any other references pertinent to Applicant's search, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
